Introduction: Desert Rose Capital Management, Inc. ("DRCM") is registered with the U.S. Securities and Exchange Commission (SEC) as an investment adviser. Brokerage and investment advisory services and fees differ, and it is important for you to understand these differences. What investment services and advice can you provide me? We offer portfolio management and investment advisory services to retail investors. We Primarily utilize exchange traded options in conjunction with income producing assets designed to produce lower overall portfolio risk while participating in potential market appreciation. We manage investment accounts on a discretionary basis and, in some instances, also on a non-discretionary basis. A discretionary account allows us to buy and sell investments in your account without asking for your approval in advance. Certain accounts have a minimum account size or investment amount that may vary on a case-by-case basis. As part of our portfolio management services, we will continuously monitor your investments and manage the portfolio according to investment guidelines.

For additional information, please see our Form ADV Part 2A, Items 4, 7, 13 and 16. **Conversation Starters.** Ask your financial professional:

The services rendered to each separately managed account are pursuant to a written management contract generally terminable by either party on prior written notice. Fees are negotiable and may differ from the above range. Accounts managed with the same investment objective may not have the same fee structure. DRCM's fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses that may be incurred by a client. Clients may incur charges imposed by custodians, brokers and other third parties, as well as sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes imposed on brokerage accounts and securities transactions. Any other funds in which DRCM may invest on behalf of clients also charge their own management fees that are disclosed in the respective fund's prospectus or offering document. Such other charges, fees, taxes, costs and commissions are exclusive of, and in addition to, our management fee, and DRCM may receive a portion of these other charges, fees, taxes, costs and commissions if the fund is also managed by DRCM. Clients should consult the funds' prospectuses or offering documents for a complete description of all fees and expenses. We do not charge performance-based fees, however, the general partner of the Cash Value Fund, LP, is a related company.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

For additional information, please see our Form ADV Part 2A brochure Items 5 and 6.

Conversation Starters Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have? When we act as your investment adviser, we must act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they affect the recommendations, we provide you. Here are some examples to help you understand what this means.

Proprietary Products: Certain products offered by us, such as private offerings, can pay us additional compensation related to your investments. These payments can create a conflict of interest in that there are additional financial incentives for us to recommend such private offerings.

For additional information, please see our Form ADV Part 2A.

- **How might your conflicts of interest affect me, and how will you address them?**

How do your financial professionals make money? Our financial professionals are primarily compensated with a fixed annual salary. Additional compensation may be based on the amount of client assets they bring in. To the extent permitted by applicable law, the compensation of certain DRCM personnel whose job responsibilities are related primarily to marketing, sales, or business development may be determined based in part on the amount of fees generated by their efforts. Accordingly, DRCM personnel may have a conflict of interest in recommending products where DRCM personnel receive compensation over other products where no compensation may be paid. Certain of DRCM's personnel are licensed insurance agents with affiliated entities and engage in insurance and client service activities on behalf of certain products. For their outside activities, the personnel may receive compensation related to the net inflows into such affiliated entities.
